

FREE Cell Phone Radiation Shield

Scientifically Proven to Reduce the Harmful Effects of Cell Phone Radiation by Up to 87%!

Version 9.0. Visit FreeShield.com to download the latest version available.

[Page 1 of 3]

Why You Need FreeShield [\[click here\]](#)

1. **Cell phones** and other wireless and electronic devices are **extremely useful**. Ever consider how you could live without your favorite device?
2. Cell phones also emit Electromagnetic Fields (**EMFs**) which can be [harmful to the human body](#). Strong evidence links regular cell phone use with anxiety, depression, infertility, brain damage, and even **cancer**.
3. EMF neutralizing technologies offer the **best of both worlds**— the convenience of modern technologies, while reducing their harmful effects.

Visit FreeShield.com for further information, including scientific research, case studies, videos and links to other inexpensive EMF-neutralizing devices and EMF meters.

How to Test FreeShield [\[click here\]](#)

Many ways exist to detect the effects of EMFs, including:

1. [SAR \(Standard Absorption Rate\)](#) testing is extremely expensive and only measures effects of radio frequencies.
2. [Infrared Thermography](#) may be a more meaningful testing method, since cell phones also emit microwaves.
3. [Applied Kinesiology](#) (or muscle biofeedback) is a free EMF detection technology that uses the world's most sophisticated computing device, the human body, for feedback. Applied Kinesiology is so simple to learn and master that you'll move from student to teacher within minutes.

You'll have fun testing FreeShield with others. The looks of disbelief are priceless as your friends prove strong with FreeShield and weak without it. Expect skepticism until after you repeatedly demonstrate its effectiveness. And yes, **FreeShield even stands up in double-blind trials**.

Your friends will soon be thanking you for helping them shield themselves from the harmful effects of EMFs.

Watch a **FREE demonstration video** and find more information about EMF testing technologies at FreeShield.com

How Does FreeShield Work? [\[click here\]](#)

You might be questioning whether FreeShield is a hoax or if the friend who sent you this is playing a joke on you.

In order to validate FreeShield technology, there is obviously **a lot of explaining to do**. Therefore, we go into great detail on [our web site](#) explaining how it works.

The short answer is that FreeShield uses advanced [geometry](#) & frequency equations to create a full spectrum vibration, which helps neutralize the harmful effects of disruptive vibrations such as those emitted from cell phones.

How to Use FreeShield [\[click here\]](#)

1. **Print this file** out using your [best print quality settings](#) available. **Cut out the "FREESHIELD.COM" strip** below. Fold the strip with printed sides facing out, to the size of a single FreeShield, which will make it four layers thick. *(This technology is more effective and provides more protection the thicker it is. Use more than four if desired.)*

2. **Remove the battery cover** from your device and place FreeShield on top of your battery, trimming as needed. (Find *iPhone* and other applications at FreeShield.com.)

3. Replace the battery cover and enjoy your newly-shielded device. Try the cool tests found at FreeShield.com to put your skepticism to rest and **share this FREE technology with your friends!**

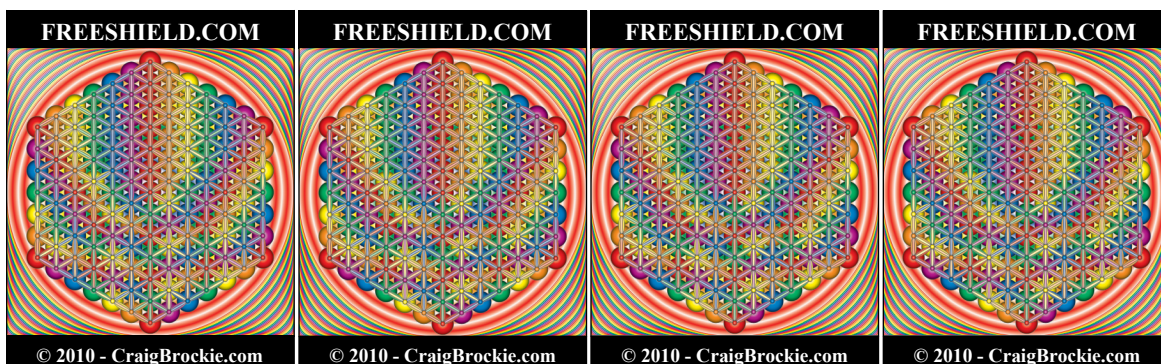

Pay it Forward [\[click here\]](#)

FreeShield is a humanitarian project, established by [Craig Brockie](#) with the intention of making a positive impact in the lives of as many people as possible.

Please "[Pay it Forward](#)" by sharing this technology. Thanks in advance for forwarding this file to your friends by email.

The third page is a complete sheet of FreeShield strips you can use to **GIVE AWAY** and use to shield your cordless phones, pagers, alarm clocks and other electronic devices.

Make a difference by emailing this file to friends!

FREE Cell Phone Radiation Shield

Scientifically Proven to Reduce the Harmful Effects of Cell Phone Radiation by Up to 87%!

[Page 2 of 3]

What is FreeShield and How Does it Work?

FreeShield is the smallest product in a line of several amazing technologies. FreeShield uses advanced geometry and frequency equations to generate a **full-spectrum vibration**. This full-spectrum vibration helps harmonize and **cancel out** the harmful effects of disruptive vibrations, such as those emitted by cell phones.

Thorough mathematical research has proven that not only do [different colors have different frequencies](#), but the same is true of angles. So by using a diverse combination of **colors and angles**, a very broad frequency range is achieved.

Is it Advanced... or Sacred Geometry?

FreeShield was developed through research into the unknown field of **sacred geometry**. If the word “sacred” distresses you in any way, feel free to refer to it as advanced geometry—as FreeShield certainly *is* an advanced technology.

You may have first heard of sacred geometry when it was featured on the hit **MTV** program, “**Rob & Big**.” Pro skateboarder and host Rob Dyrdek liked sacred geometry so much that an entire episode was dedicated to what he popularized as “**Sacred G**.” [Click here to watch this episode.](#)

Although sacred geometry may strike you as unusual, you actually see it every day. Sacred geometry is found in many religious icons, the symbols of **Freemasonry** and ancient civilizations, and the works of the legendary [Leonardo Da Vinci](#).

Visit the following two links to gain more understanding:

- [Sacred Geometry](#) – A brief introduction to sacred geometry, including the basics structures.
- [The Flower of Life](#) – An ancient design of great significance. A very similar pattern to FreeShield.

Get the Whole Story...

To learn more, watch Nassim Hamein in his breakthrough DVD, “[Crossing the Event Horizon](#).” Hamein explains the significance of geometry in a very entertaining and easy-to-understand way. He also presents a compelling and complete [unified field theory](#) (aka [theory of everything](#)) that fulfills a challenge that has eluded the greatest physicists, mathematicians & philosophers of recorded history.

How Does FreeShield Work If I Can't See It?

One thing you might find curious is how FreeShield technology **works even when hidden** behind your cell phone battery cover, case or skin. To answer that question, we must realize that [what the human can eye see](#) is a very small fraction of the total light spectrum.

A good analogy to consider is that of a high-pitched canine whistle that dogs can hear clearly, but we cannot. Similarly, although you may have placed FreeShield **out of sight**, it's really only dark in terms of our perception. The vast majority of the [total light spectrum](#) is still interacting with FreeShield and its EMF-neutralizing effects.

What Else Do I Need to Know?

Some people are more sensitive to radiation than others. If you are currently free from obvious symptoms of cell phone radiation (headaches, excessive heat ear/face, red eyes, etc.) then a single application of FreeShield may be all you need.

People who are more sensitive to radiation may require several strips of FreeShield or may wish to use a complementary EMF-shielding technology as well. In this regard, you have many options available. [SARshield](#) is an excellent cell phone product that I use personally. Using more Sacred G technology may also prove helpful to you.

There is good reason to also be concerned about the cumulative affects of the radiation you have already been exposed to. Fortunately, **there is hope**. Pick up a copy of the book, “[Clear Body, Clear Mind](#)” to learn how to eliminate the accumulated radiation from your body.

Lastly, it's important to know that handling cell phone radiation is just one of many applications for Sacred G technology. Be sure to visit [SacredG.com](#) today to download **free Sacred G samples** to enhance other aspects of your life.

Put Sacred G under your pillow tonight and in the morning you'll better understand what this technology is **really** about. You'll soon be experiencing **enhanced dream activity**, improved mental clarity, less stress, and more energy as this amazing technology improves your sleep and boosts you with **good vibrations**.

Enjoy Your FreeShield !

Be well, [Craig Brockie](#)

*PS. Thanks for remembering
to 'Pay it Forward'*

FREE Cell Phone Radiation Shield

Scientifically Proven to Reduce the Harmful Effects
of Cell Phone Radiation by Up to 87%!

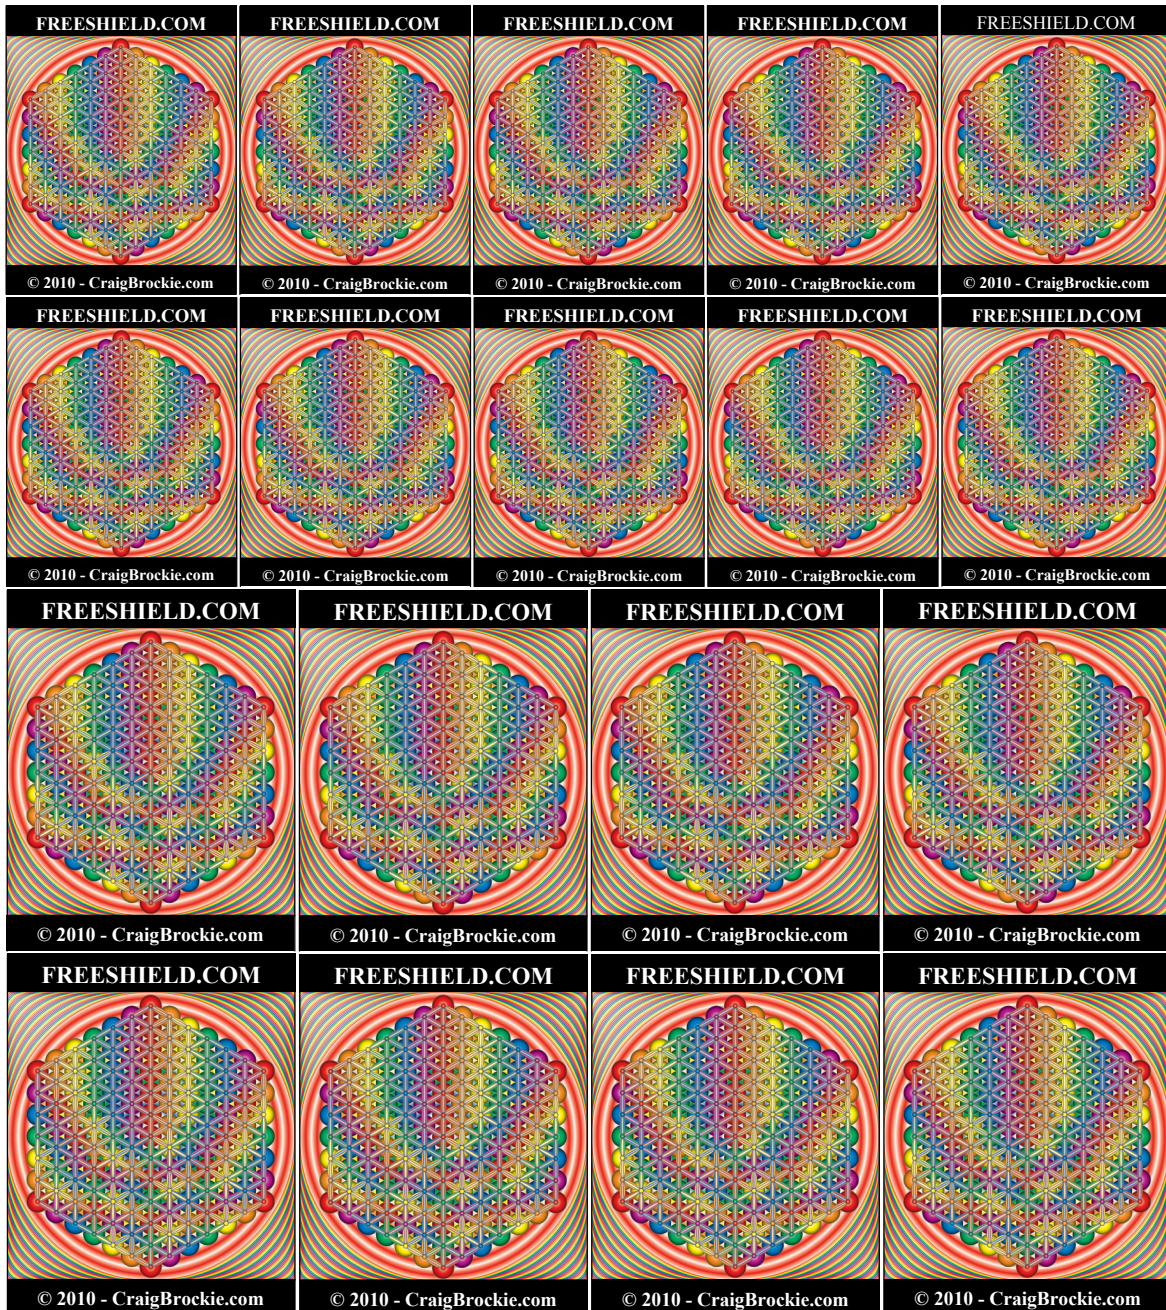

Version 9.0. Visit FreeShield.com to download the latest version available.

[Page 3 of 3]

This page provides two great FreeShield sizes to fit almost any cell phone.

Please [Pay it Forward](#) by printing several copies of this page to share FreeShield with others!
